

EVERSMILES ACS COURSE

3280 Yonge St, Toronto, ON M4N 2L6

WWW.EVERSMILES.CA

WHY EVERSMILES

- Innovative methods of training
At EverSmiles we present new methods of training in the realm of clinical skills courses. Our instructor, Dr. Majid Zakeri, along with our staff and faculty, insist to keep up-to-date with the most recent advancements and methods of training to ensure that EverSmiles creates the best opportunity for success in the ACS room.
- State of the art facilities
- Interactive discussion sessions
During the course there are several discussion sessions based on participant programs. This is not a simple lecture based session but a highly interactive session where every possible advantage and challenge would be discussed in order to give students a better view of each topic.
- Friendly environment
- Very easy access from all corners of GTA

WHAT'S INCLUDED

- Short term courses for specific projects
- Live demonstrations
- One-on-one sessions
In One-on-One sessions provide the participants with the opportunity to ask more questions and to ask the instructors to give them a demo. There is more priority in these sessions and they can benefit from private tutoring.
- Power-point discussions for all projects
- Individual assessment sessions
This is one of the unique features of EverSmiles's clinical skills courses. Participants will be observed during the course and they can ask their questions at the moment from the instructors. On the other hand instructors can assess participants continuously during the course and give them specific advice whenever they need.
- High quality demo videos
- Mock exams and discussion sessions
- Comprehensive conclusion sessions

INSTRUCTOR

DR. MAJID ZAKERI
HEAD INSTRUCTOR

HIGHLIGHT OF EXPERIENCES:
Dr. Zakeri obtained his DDS in 2012 at Maschhad Dental Faculty. He then went to Italy to study Aesthetic Dentistry at the University of Genoa and then later he moved to Canada in 2017 and passed the NCEB equivalency exams with remarkable scores in his first attempt.

His great passion for teaching led him to become a researcher at the University of Toronto's Prosthodontics department since 2017.

His aim during the ACS classes is to present and transfer all of his experience and knowledge in an organized way and to make this part of the dentistry equivalency process simple and manageable for all candidates. For this aim he has a concrete plan which helps you get the most out of your practice during the course.
