COURSE DESCRIPTION

This education program addresses practicing and approved dental professionals who are interested in increasing their knowledge, improve patient experience and increase revenue. Mastership is accomplished by training in hands-on seminars and clinical operator sessions. The mentoring and training curriculum begins by refining the team's support of their philosophy, pre-diagnostic skills, and advanced communication skills to increase case acceptance. The doctor and clinical team then participate together in a structured clinical mentoring and training curriculum.

COURSE AIM & OBJECTIVES

- Identify ideal cases to start incorporating orthodontic cases with Fixed system or Clear Aligners treatment in your practices including Orthodontic letters and forms
- Compile the required Diagnostic records - Digital photography , treatment chart, study models , digital scanning , cephalometric , panorex , periodontal exam.
- Basic Biomechanics and its implication in Orthodontics
- Diagnosis and treatment Planning (Extraction or Non Extraction , Growth Modification and Early treatments, Surgery or Camouflage ,etc.)
- Growth and Development, Phase I & Removable expansion appliances
- Fixed brackets, straight wire technique
- Different Archwires, elastics, power chain, open coils, separators, banding of molars
- Clear Aligner practice work -flow, case monitoring and troubleshooting
- Understand the Clear Aligners treatment Software
- Retention
