Dr. Farokh Asefzadeh

MS in Restorative & Esthetic Dentistry
Fellowship in Laser Dentistry

Course Description

In this course, you will receive a comprehensive education on minimal prep and no prep veneers, from the basics to the advanced techniques.

Initially, you will be introduced to the fundamental principles of veneers, including treatment planning, material selection, and preparation techniques. Dr. Asefzadeh will share his knowledge and expertise with you, and you will have the opportunity to ask questions and engage in discussions with other participants. Afterwards, you will put your knowledge into practice. Dr. Asefzadeh will guide you through the process of taking impressions and creating temporary veneers. You will also learn how to place and bond the veneers, and gain hands-on experience under the guidance of Dr. Asefzadeh.

Throughout the course, you will have access to the latest materials and technology, and will be able to observe and interact with real-life cases. By the end of the course, you will be equipped with the necessary skills and knowledge to confidently provide veneer treatments to your patients. Don't miss this valuable opportunity to enhance your dental practice and expand your professional skills with Dr. Asefzadeh.

Course Objectives

- Preparation of 4 upper anterior incisors (minimal prep and non-prep)
- Digital scanning and conventional impression-taking of prepped teeth
- How to Fill and send a Lab prescription with your digital impression
- Fabricating temporary restorations
- Place and bond your Lab made veneers
- Indications and applications of different cements
- Finishing and polishing of porcelain Veneers
